COMPETITIVE STRENGTHS

A Global Category with Attractive Growth Fundamentals

The coffee and tea categories are large global consumer markets, which have demonstrated strong and resilient historical growth, including against the other food and beverage categories that they compete with. From 2007 to 2019, the global coffee and tea categories grew by a CAGR of 2.9% in volume, and from €83 billion in 2007 to €118 billion in 2019 in sales. Moreover, according to Euromonitor International (“Euromonitor”), between 2019 and 2024, sales in the global coffee and tea categories are forecasted to grow at a CAGR of 2.6% in volume, increasing from current levels to €134 billion in 2024 in sales. According to Euromonitor, growth in coffee and tea sales is also forecasted to grow in each of the Group’s top five markets by total sales in FY 2019: the United States, Germany, France, the Netherlands and Brazil.

⁴ After the repayment of part of its outstanding debt with such net proceeds.

The coffee and tea categories have benefited in the past from attractive growth fundamentals and have proven to be resilient in times of economic downturn. The Group believes that the growth in the coffee and tea categories has been and will continue to be driven by changing consumer trends and preferences. The Group believes that its focus as a pure-play coffee and tea group, combined with its scale make it well-positioned to address these consumer trends and preferences and take advantage of these growth opportunities.

The World's Largest Pure-play Coffee and Tea Group

The Group is the world's largest pure-play coffee and tea group by revenue, with an approximate 7% market share in a fragmented market. In FY 2019, 79% of the Group's total sales were derived from 44 markets where it held the number one or number two market position in the CPG or Out-of-Home sales channels. The Group has a diversified global footprint with a strong market presence in more than 100 countries. In FY 2019, the Group derived 77% of its revenue from developed markets and 23% of its revenue from emerging markets⁵.

The Group believes that there are significant opportunities for further market share gains in its markets, both through organic growth and strategic M&A.

Differentiated Consumer Reach Model

Through its well-recognised and trusted brand portfolio, access to coffee technologies and go-to-market approach, the Group believes it has established a platform unique to the industry. The Group offers a range of high quality and innovative coffee and tea products to serve consumers' needs across markets, consumer preferences and price points.

The Group has established the largest portfolio of coffee and tea brands globally, developing over 50 trusted coffee and tea brands. Through its brand portfolio, it served approximately 130 billion cups of coffee and tea in FY 2019 in more than 100 countries to customers across price points and geographies.

The Group believes that it is one of the two largest global coffee and tea groups offering coffee technologies that include whole-beans, roast and ground, instant, capsules, pads, pods (Tassimo coffee discs and K-cups) and ready-to-drink. The Group believes that coffee technology, which requires capital and expertise, is important to address changing consumer trends and preferences.

The Group's products and systems are sold through a go-to-market approach across the CPG, Out-of-Home, retail and online sales channels. The Group believes that it is the only coffee and tea group, operating at scale, with this go-to-market approach. The Group's ability to sell through this multitude of sale channels allows fast deployment of its products across countries to meet evolving customer and consumer demand.

Strong Growth and Profitability Profile

The Group has grown organically and through strategic M&A. Organic growth has primarily been driven by: growth in the underlying coffee and tea categories; its portfolio of global, regional and local brands; technological innovation; and its unique go-to-market approach.

The Group's organic growth has benefited from the premiumisation of coffee demand in areas such as North America, Western Europe and Australasia. In those markets, coffee pods, which sell at a substantial premium relative to other coffee categories on a unit basis, have been rapidly growing as a category. The Group has also benefited from shifts in consumer demand to higher priced forms of coffee, in particular, in Latin America including Brazil. In other emerging regions, the Group has benefited from volume growth, which has resulted from population growth and increasing per capita consumption.

⁵ Group's revenue including export revenue.

NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION IN WHOLE OR IN PART, DIRECTLY OR INDIRECTLY, IN OR INTO THE UNITED STATES, CANADA, AUSTRALIA, SOUTH AFRICA OR JAPAN OR ANY OTHER JURISDICTION IN VIOLATION OF THE RELEVANT LAWS OF SUCH JURISDICTION.

With premiumisation of coffee demand and volume growth forecast in the coming years by 2.3% (volume growth CAGR 2019 – 2024), the Group believes it is well-positioned to leverage its broad product offering and expansive geographic reach to achieve further organic growth on the basis of favourable consumer trends.

The Group also has been a significant consolidator of the coffee and tea categories by leveraging its significant execution and integration capabilities, completing more than 15 M&A transactions between FY 2012 and FY 2019.

Experienced Team of Entrepreneurs and Long-term Shareholders

The Group is led by an experienced and entrepreneurial global leadership team with a proven track record of strong managerial, marketing and sales capabilities. Through its medium- to long-term incentives, the interests of the global leadership team are aligned with the Group and its shareholders. Through the Group's executive ownership plan, certain members of the global leadership team invest their own capital in the Group in order to further align their interests and demonstrate their commitment to their role.

The Group believes that the combination of its coffee and tea categories experience, the expertise of its employee base and its growth-driven global leadership management means that the Group is well placed to successfully identify and pursue growth opportunities.

JAB is a leading investor in consumer goods and services overseeing more than US\$100 billion of assets under management, focused on long-term value creation through building brands that are global champions and challengers. JAB is a proven, long-term oriented shareholder with strategic vision that has guided the Group to become the world's largest pure-play coffee and tea group. JAB's strategic vision will continue to be represented at the Company through its representatives on the Company's one-tier Board. As at the settlement date, five non-executive directors on the Board will be representatives of JAB and two non-executive directors will be representatives of Mondelēz International. JAB is committed to a majority ownership in the Company for the long-term.

STRATEGY

The Group intends to pursue further profitable and sustainable growth opportunities in the global coffee and tea categories. Specifically, the Group intends to focus on:

- increasing the household penetration in the United States;
- increasing its exposure to, and driving growth in, emerging markets;
- expanding in the single serve and whole-beans subcategories;
- pursuing new growth pools (including expanding its retail coffee stores business in China, tea and ready-to-drink beverages); and
- capturing attractive Out-of-Home opportunities.

RECENT DEVELOPMENTS

The Group's business has been impacted by the outbreak of the COVID-19 pandemic, which has led to unprecedented circumstances, including for the Group's employees, its customers and suppliers. The Group's primary focus has been to protect the health and safety of its employees, maintain business continuity and provide support to communities.

The Group's trading has thus far been relatively resilient during the COVID-19 pandemic at a time of global economic turmoil. The coffee and tea category has benefited in the past from attractive growth fundamentals and has proven to be resilient in times of economic downturn. Combined with the Group's global manufacturing and supply network, its large portfolio of trusted brands and its strong and diversified go-to-market approach, the Group has been able to weather past crises and believes it is well-positioned to withstand the current environment.

Nonetheless, the Group's supply chain and operations have been affected by the consequences of the COVID-19 pandemic, including:

- preventive measures put in place while all manufacturing facilities continued to operate;
- temporary closure or limited operations in the Group's retail coffee stores;
- customer service levels somewhat adversely affected but remained strong and recently approaching pre-COVID-19 levels;
- well performing IT networks in light of a surge in demand from the Group's employees working remotely; and
- within the Out-of-Home segment and the retail coffee stores sales channel, furlough of a large number of employees.

While working through the significant effects of the COVID-19 pandemic, the Group has, since 31 December 2019, traded in line with management's expectations. Notably, in the first quarter of FY 2020:

- the Group's revenue increased by 3.1% compared to the first quarter of FY 2019, driven largely by like-for-like sales growth of 3.5%. Revenue organic growth (at constant commodity prices) developed in line with the Group's medium- to long-term targets;
- revenue and profit declines in the Out-of-Home and retail coffee stores sales channels, which represent 21% of the Group's revenues in FY 2019, were offset by increased revenues and profitability within the CPG and online sales channels, which represent 79% of the Group's revenues in FY 2019;
- the Group's Adjusted EBIT improved by double-digits compared to the first quarter of FY 2019, and as a result is ahead of management's medium- to long-term targets;
- the Group's liquidity has been resilient in the first quarter of FY 2020. In the first quarter of FY 2020, the Group generated €183 million of free cash flow. As at 31 March 2020, the Group had €638 million of cash and cash equivalents, with access to an additional €647 million of undrawn committed credit facilities. The Group believes it remains well-positioned to meet its medium- to long-term free cash flow conversion % target; and
- the Group's leverage ratio improved by 0.2x compared to 31 December 2019.

Since 31 March 2020, revenue in the CPG and online sales channels remains strong while the negative impact on Out-of-Home and retail coffee stores sales channels revenue continues to be significant. Given the underlying momentum through 30 April 2020, the Group expects to deliver positive like-for-like revenue growth for H1 2020, despite the significant COVID-19 impacts on the Out-of-Home and retail coffee stores channels. As at 30 April 2020, the Group's revenue continued to be supported by strong performance of the CPG and online sales channels. Four of the Group's five operating segments showed positive like-for-like revenue growth, while the Out-of-Home segment recorded a decline. The Group's Adjusted EBIT continued to increase at a double-digit rate through 30 April 2020, compared to 30 April 2019. The Group's net debt continued to reduce further, with strong free cash flow generation in April 2020.

Going forward, the Group will continue to comply with local government restrictions in response to the COVID-19 pandemic. The Group intends to continue working with local communities to safely reopen coffee stores and resume Out-of-Home segment operations in line with developing public restrictions and guidance.

Overall, there remains uncertainty regarding the development of the pandemic and the timing of any macro-economic recovery. Whilst, the effects of such developments on the Group in the second quarter and for FY 2020 remain difficult to predict, the Group believes its medium- to long-term targets continue to be achievable.⁶

DIVIDEND POLICY

The Company intends to target a dividend payout ratio per financial year of 50% to 60%⁷. For this purpose, the dividend payout ratio for a financial year is defined as the percentage of the Group's profit attributable to shareholders in the immediately preceding financial year. The ability and intention of the Company to declare and pay dividends in the future: (i) will mainly depend on its financial position, results of operations, capital requirements, investment prospects, the existence of distributable reserves and available liquidity and such other factors as the Board may deem relevant; and (ii) are subject to factors that are beyond the Company's control.

⁶ Based on assumptions described in the Prospectus.

⁷ Subject to certain limitations described in the Prospectus.

No action has been taken by the Company or its shareholders that would permit an offer of Shares or the possession or distribution of this announcement or any other offering or publicity material relating to such Shares in any jurisdiction where action for that purpose is required.

The release, publication or distribution of this announcement in certain jurisdictions may be restricted by law and therefore persons in such jurisdictions into which they are released, published or distributed, should inform themselves about, and observe, such restrictions.

This announcement may include statements, including the Company's financial and operational medium- to long-term objectives that are, or may be deemed to be, "forward-looking statements". These forward-looking statements may be identified by the use of forward-looking terminology, including the terms "believes", "estimates", "plans", "targets", "projects", "anticipates", "expects", "intends", "may", "will" or "should" or, in each case, their negative or other variations or comparable terminology, or by discussions of strategy, plans, objectives, goals, future events or intentions. Forward-looking statements may and often do differ materially from actual results. Any forward-looking statements reflect the Company's current view with respect to future events and are subject to risks relating to future events and other risks, uncertainties and assumptions relating to the Company's business, results of operations, financial position, liquidity, prospects, growth or strategies. Forward-looking statements speak only as of the date they are made.

Each of the Company, its shareholders, the Underwriters and their respective affiliates expressly disclaims any obligation or undertaking to update, review or revise any forward-looking statement contained in this announcement whether as a result of new information, future developments or otherwise.

The Underwriters are acting exclusively for the Company and/or its shareholders and no one else in connection with any offering of Shares. They will not regard any other person as their respective clients in relation to any offering of Shares and will not be responsible to anyone other than the Company and/or its shareholders for providing the protections afforded to their respective clients nor for providing advice in relation to any offering of Shares, the contents of this announcement or any transaction, arrangement or other matter referred to herein. None of the Underwriters or any of their respective subsidiary undertakings, affiliates or any of their respective directors, officers, employees, advisers, agents, alliance partners or any other entity or person accepts any responsibility or liability whatsoever for, or makes any representation, warranty or undertaking, express or implied, as to the truth, accuracy, completeness or fairness of the information or opinions in this announcement (or whether any information has been omitted from this announcement) or any other information relating to the group, its subsidiaries or associated companies, whether written, oral or in a visual or electronic form, and howsoever transmitted or made available or for any loss howsoever arising from any use of this announcement or its contents or otherwise arising in connection therewith. Accordingly, the Underwriters disclaim, to the fullest extent permitted by applicable law, all and any liability, whether arising in tort or contract or that they might otherwise be found to have in respect of this announcement and/or any such statement.

At the date of the Prospectus, the Company will still be a private company with limited liability (*besloten vennootschap met beperkte aansprakelijkheid*) named JDE Peet's B.V.. The Company is expected to be converted into a public company with limited liability (*naamloze vennootschap*) and to be renamed to JDE Peet's N.V. immediately prior to settlement.

NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION IN WHOLE OR IN PART, DIRECTLY OR INDIRECTLY, IN OR INTO THE UNITED STATES, CANADA, AUSTRALIA, SOUTH AFRICA OR JAPAN OR ANY OTHER JURISDICTION IN VIOLATION OF THE RELEVANT LAWS OF SUCH JURISDICTION.

In connection with the Offer, each of the Underwriters and any of their affiliates, may take up a portion of the Shares in the Offer as a principal position and, in that capacity, may retain, purchase, sell, offer to sell for its own account such Shares and other securities of the Company or related investments in connection with the Offer or otherwise. In addition, each of the Underwriters and any of their affiliates may enter into financing arrangements (including swaps or contracts for differences) with investors in connection with which each of the Underwriters and any of their affiliates may from time to time acquire, hold or dispose of Shares. None of the Underwriters or their affiliates intends to disclose the extent of any such investment or transactions otherwise than in accordance with any legal or regulatory obligations to do so.

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the Shares subject of the Offer have been subject to a product approval process, which has determined that such Shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "Target Market Assessment"). Notwithstanding the Target Market Assessment, "distributors" (for the purposes of the MiFID II Product Governance Requirements) should note that: the price of the Shares may decline and investors could lose all or part of their investment; the Shares offer no guaranteed income and no capital protection; and an investment in the Shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offer.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the Shares.

Each distributor is responsible for undertaking its own target market assessment in respect of the Shares and determining appropriate distribution channels.
